

the future begins here
BOKAMOSO YOUTH PROGRAM

NAME : **JEFFREY RESENGA**
CURENLTLY STUDYING : **ACCOUNTING**
INSTITUTION : **PC TRAINING AND BUSINESS COLLEGE**

My name is Jeffrey Resenga. I first came to Bokamoso in 2006 after completing my matric in 2005, and my family could not pay for me to further my studies. Bokamosos has changed my life in many ways. In my first year at Bokamoso I was chosen to lead a loveLife team which gave me a complete different look at my life and myself.

In 2008 I was among a team of young people who to the USA and it was an eye opener for me on other people view life and the things that they value and about different cultures. In the same year I enrolled at Boston Business College on a year course, Media Consultant, and I performed very well and completed the course in October.

In 2009 I back again in the USA and this is the year I will never forget for history was made in my presences. And currently I am registered with PC Training and Business College and I am completing this Diploma in Accounting next year December and I am looking forward to complete going out there in business world or work environment and facing new challenges.

CHALLENGES

My challenge this year was transport money, and I have worked out something and I have overcome that challenge and I also didn't have a required calculator (Scientific). But a friend has made that one a thing of the past. And my goals are to work towards becoming a radio dj or that environment of radio and also to contribute towards the growth of Bokamoso and other young people in the community.
