

the future begins here
BOKAMOSO YOUTH PROGRAM

MMAABIYA CONSTANCE MOFUOA (THUSI)
20 YEARS OLD FEMALE
STUDYING INDUSTRIAL PSYCHOLOGY
UNIVERSITY OF SOUTH AFRICA (UNISA)

I came to Bokamoso Life Centre in March of 2008. I had just relocated to Winterveld from Rustenburg. My mother being a single parent, could not afford to pay for tertiary education, for I felt hopeless and that my dreams were shattered. A friend told me about Bokamoso Life Centre and I decided to check it all soon. I found myself doing the ADP programme. Then lovelife, which is the after care program here at Bokamoso. Currently I am one of the students who will be coming the USA in January 2010.

I am currently a registered UNISA student, studying Industrial psychology, thanks to Bokamoso Life Centre as they paying for tuition. My course is very exciting and interesting. I am enjoying it but one of my challenges is that I struggle to get prescribed books (texts) and that I sometimes do not have money to go to classes which means I miss out a lot. When I do not have money to send my assignments there is an Internet Cafe where I can e-mail my assignments. But there are times when the airtime is finished and that means my assignments will be delivered late or not be delivered at all.

I appreciate everything that Bokamoso Life Centre has and is doing for me. I may not have everything I need for school but I am at least at school and with the little I have I'm glad to inform you that I have never missed an assignment.
