

the future begins here
BOKAMOSO YOUTH PROGRAM

RAYMOND SELEPE

I came at Bokamoso Life Center last year July 2008 to attend the ADP programs and completed after 3 months.

Actually my intention to come to Bokamoso Life Center is to be helped to further my studies which they help me and I appreciate their help. I was studying Basic Ambulance Assistance (BAA) Course which is level one of Paramedics. And I have successfully completed it this year April, but I am still stuck due to registering my BAA Certificate at Health Profession Council of South Africa (HPCSA) which cost R1118.00 which I don't have currently and also Bokamoso tells me that they don't have money which affects me badly and I can't find a job because I am not registered with HPCSA.

But without any hesitation, I do I appreciate their help, and if they can also help me with the money to register my certificate I will highly appreciate it.
