

the future begins here
BOKAMOSO YOUTH PROGRAM

SARAH JIYANE

My name is Sarah Jiyane a queen lady from Winetrveldt. I am currently studying Global Emergency Technology at Pretoria north. I am doing Basic Ambulance Assistant (BAA) or paramedics. I am studying by the help of Bokamoso youth center. My course is a 4 weeks course. I started on the 24th of August 2009 and I will be completing on the 21st of September 2009.

CHALLENGES

When started a course I thought it was not difficult, but as days goes by, it started being difficult. And the challenge I face is that we are writing tests everyday and doing six chapters a day. They gave us manuals, I and other girl were robbed our bags during launch at Pretoria north mall. So I didn't have money to buy another manual. I spent a week without studying because I didn't have manual and note book, but luckily my parents bought me a new one. The other challenge is that after completing this course I won't have money to register the certificate with the Health Profession Council of South Africa (HPCSA). And again they will need a driver's license and I don't have it.

MY GOALS

By next year May 2010 I want to see myself working or volunteering as a Paramedic. And in October 2010 I want to see myself doing level two of this course.
